User Persona

Aparna is a 34-year-old working at a big law firm and handles 5+ clients at a time. Her legal knowledge level is top notch and also is quite tech savvy.

Needs

- Summarization of case files and identifying key clauses*
- Auto precedent identification in cases where applicable*
- Easy and understandable summaries - 'indicating the current situation and further plan' for the clients*

"IF TAर्क CAN EXTRACT KEY POINTS AND USEFUL PRECEDENT ACCURATELY, IT SAVES ME HOURS PER CASE."

Aparna Sharma
Junior Lawyer, 34 Years

Aman is a 23-year-old corporate employee looking for renting a house. His legal knowledge level is quite low but he is quite tech savvy tho.

Needs

- Alerts for hidden clauses in rent agreements , risky terms etc.*
- Awareness of high-security deposits, early-exit penalties*
- Instant explanation of complex clauses*

"I JUST WANT TO KNOW IF THIS RENT AGREEMENT IS FAIR OR NOT."

Aman Nair
Corporate Employee, 23 Years

Ramesh is a 39-year-old with a garment business and also runs a small factory. He lacks expertise in both legal and technical domains.

Needs

- Knowing about all the risks and obligations before signing an agreement.*
- Hiring workers legally binded with a legal aggrement.*
- Understanding government or supplier agreements and getting the gst / lincense documentation done right.*

"मैं हर बार वकील को नहीं दिखा सकता, मुझे समझ में आना चाहिए क्या साइन कर रहा हूँ "

Ramesh Yadav
Small business owner, 39 Years

Understanding key Problems

Complex and Hard-to-Understand Legal Documents :

Legal agreements are often lengthy, filled with technical jargon, and difficult for most people to interpret accurately.

Hidden Risks and Unfair Terms :

Important risks, obligations, or unfavourable clauses can go unnoticed, exposing parties to potential disputes or losses.

Resource and Cost Constraints :

High costs and limited resources prevent many from accessing quality legal services or adopting advanced legal technologies.

Taక View

Taక View is an AI-driven tool that transforms complex legal documents into clear, actionable insights — enabling users to make confident decisions before signing.

Taక View

Comprehensive legal document analysis combining summary generation, risk assessment, and key terms extraction in one powerful workflow.

- ✓ Executive summary generation
- ✓ Risk assessment and liability scoring
- ✓ Key terms and clause identification

Risk Analysis

Okay, here's the comprehensive risk analysis of the provided Confidentiality Agreement to protect India.

1. **Document Classification & Legal Framework**
This is a **Confidentiality Agreement**, also known as a **Non-Disclosure Act, 1872**. Specifically, Sections 23 (lawful consideration and object) and 24 (rules framed thereunder including **Information Technology (Reas**) are applicable with respect to data protection and security. The **Copyr** intellectual property.

2. **Party Risk Allocation Analysis**
The key parties are the Employer and the Employee.

- Employer: The Employer's risks include the potential unauthorized disclosure, disadvantage, and damage to reputation. Their responsibilities include **to adequately define and protect confidential information weakens the**.
- Employee: The Employee is at risk of facing legal action for breach of monetary damages. Their responsibilities include maintaining the **confidential restrictive clauses could be deemed unenforceable under Section 27 o**.

3. **Contractual Obligation Risk Matrix**
Here's a breakdown of major obligations and associated risks:

- Confidentiality Obligation (Clauses 5, 6, 7):**
 - Legal basis for enforceability:** Sections 23 and 27 of the **Indian Co** restraints on trade. Case law like **Niranjan Shankar Golikari v. The Centur** be reasonable to protect legitimate business interests.
 - Risk of non-compliance:** Potential for **injunctive relief** (Clause 18). Disclosure of sensitive personal data could also trigger liabilities under the **Practices and Procedures and Sensitive Personal Data or Information**.
 - Mitigation requirements:** Clearly define "Confidential Information" with protection and confidentiality obligations. Conduct regular audits of data.
 - Non-Solicitation (Clause 11):**
 - Legal basis for enforceability:** Subject to Section 27 of the **Indian Co** geographical area. The case of **V.F.S. Global Limited v. Mr. Suprit Roy [20**

Key terms flowchart

Function completed

1. **Document Type/Purpose:** Confidentiality Agreement to protect India.

2. **Key Parties & Roles:** Employer (disclosing party/owner of Confidentiality Agreement).

3. **Obligations, Rights, Restrictions, Disclosure Rights:** The Employer (clause 6). They cannot pursue Employer's business opportunities under strict conditions (clause 8a), with Employer's consent (clause 8b).

4. **Financial Terms & Penalties:** No direct financial terms specified. Confidentiality causes irreparable injury (clause 18).

5. **Timelines & Deadlines:** Non-solicitation extends for **two years** indefinitely (clause 7).

6. **Breach Consequences & Remedies:** Breach results in potential damages (clause 21).

7. **Key Legal Provisions:** Agreement governed by laws of specified essence (clause 29).

8. **Contractual Obligation Risk Matrix:**

- Confidentiality:**

7-8 Risk Classes

10-12 Key Terms

Taక View provides summary , key risks and important terms ; all within a click of a button

Summary

1. **Document Type/Purpose:** This is a **Non-Competition and Non-Disclosure Agreement**.

2. **Key Parties and Roles:** The key parties are the Company and the Employee. The Employee is prohibited from competing with the Company during the **Employment Term** and for **two (2) years** thereafter.

3. **Obligations, Rights, Restrictions, and Disclosure Rights:** The Employee is obligated to refrain from competing with the Company during the **Employment Term** and for **two (2) years** thereafter. They cannot solicit customers of the Company, nor pursue business opportunities presented to them during their employment. The Company has the right to discipline the Employee if they violate these obligations.

Upon termination, the Employee must return all Company property. The Employee has no right to keep any equipment or documents belonging to the Company with written notice of any outside employment.

4. **Financial Terms and Penalties:** There are no immediate financial terms outlined here. However, the Employee is subject to legal costs and attorney's fees for breach, including disgorgement of profits.

5. **Timelines and Deadlines:** The non-competition and non-solicitation obligations extend for **two (2) years** after termination.

6. **Breach Consequences and Remedies:** Breach of this agreement will cause **irreparable damage** to the Company, including recovery of all legal costs and attorney's fees.

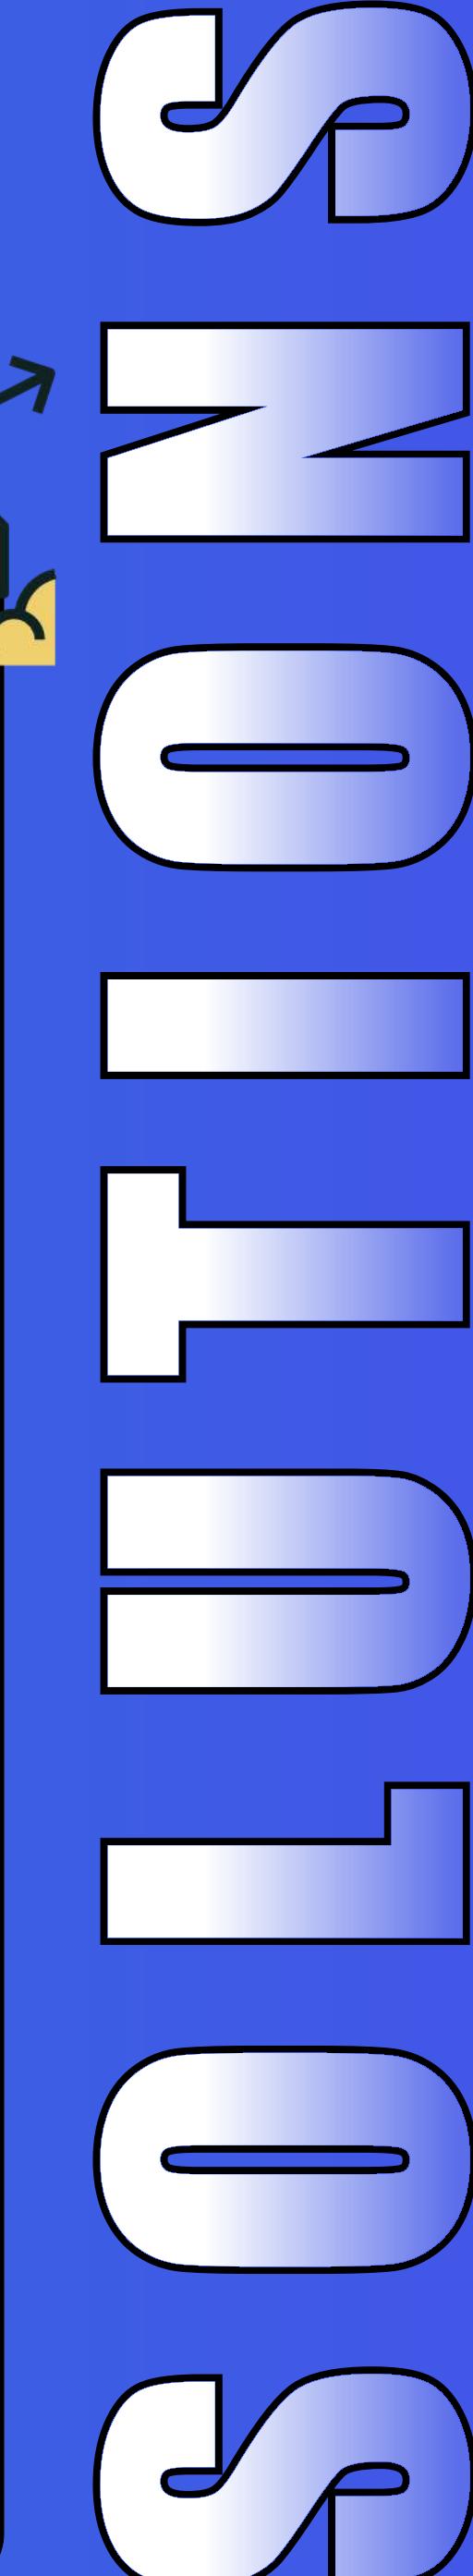

7. **Key Legal Provisions:** This agreement is governed by the laws of **Delaware** and any dispute will be resolved in the state of Delaware. The Employee may not waive jurisdiction or venue.

8. **Contractual Obligation Risk Matrix:**

- Confidentiality Obligation:**
 - Legal basis for enforceability:** Paragraph 3 of the agreement outlines the employee's obligation to protect confidential information. The Sarbanes-Oxley Act (SOX) also applies.
 - Risk of non-compliance:** Disclosure or misuse of **Confidential Information** can lead to legal consequences, including fines and imprisonment. Stolen trade secrets can result in economic gain to another party. **HIGH RISK**
 - Mitigation requirements:** Implement security protocols, require employee training on data handling, and conduct regular audits.
- Non-Competition Obligation:**
 - Legal basis for enforceability:** Paragraph 4 outlines the non-compete clause. Enforceability is determined by **Delaware law** on restrictive covenants.
 - Risk of non-compliance:** Engaging in competitive activities within the prohibited period can result in legal consequences, including injunctions and fines. **MEDIUM RISK**
 - Mitigation requirements:** Ensure the non-compete is narrowly tailored to protect legitimate business interests.

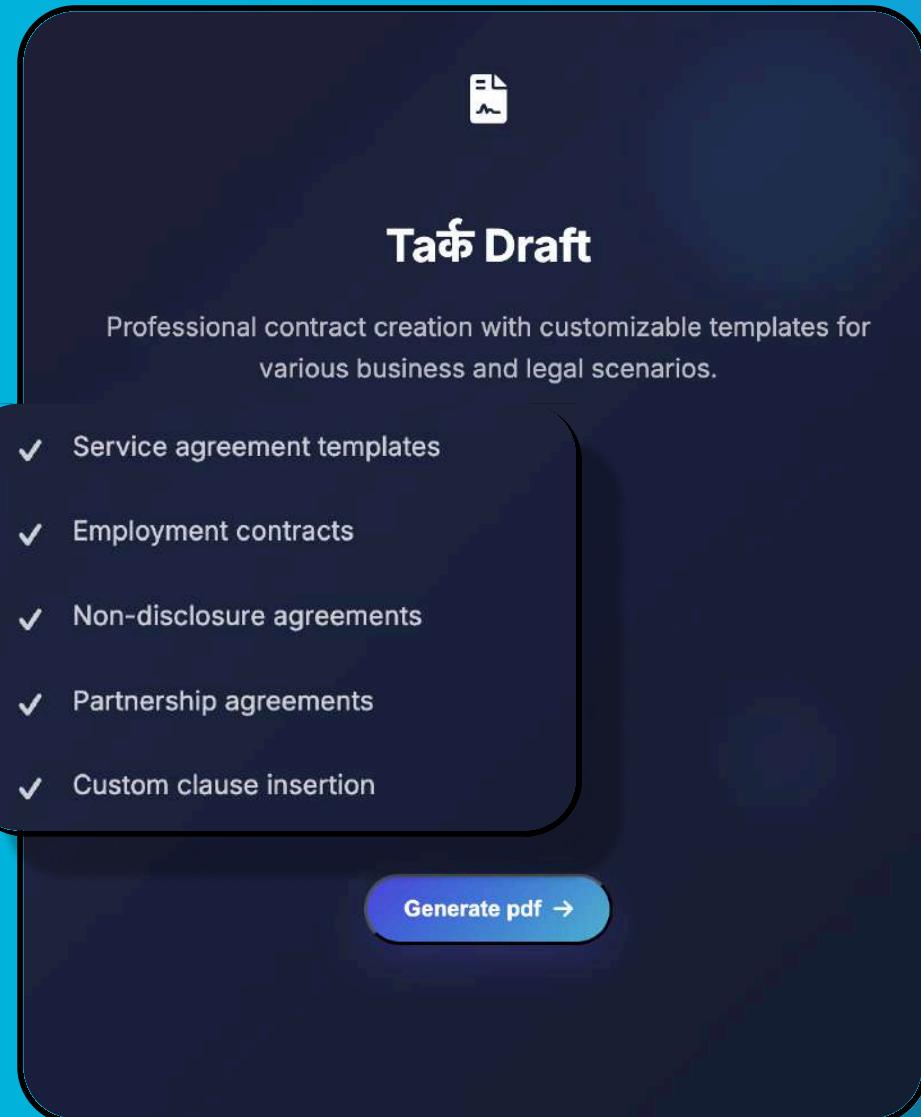

FUTURE PROSPECTS

- Option to **upload** the document in jpg/png.
- Integrating **Taక Assist** with **Taక View** ; so that user can ask follow up questions.
- Using **ML+DL** to train the AI to perform better and give more accurate results.
- Multilingual support**
- Ability to **identify fake contracts** – by checking if the stamps, watermarks, signatures etc. are correct.
- Option to **e-mail** the pdf to the user.

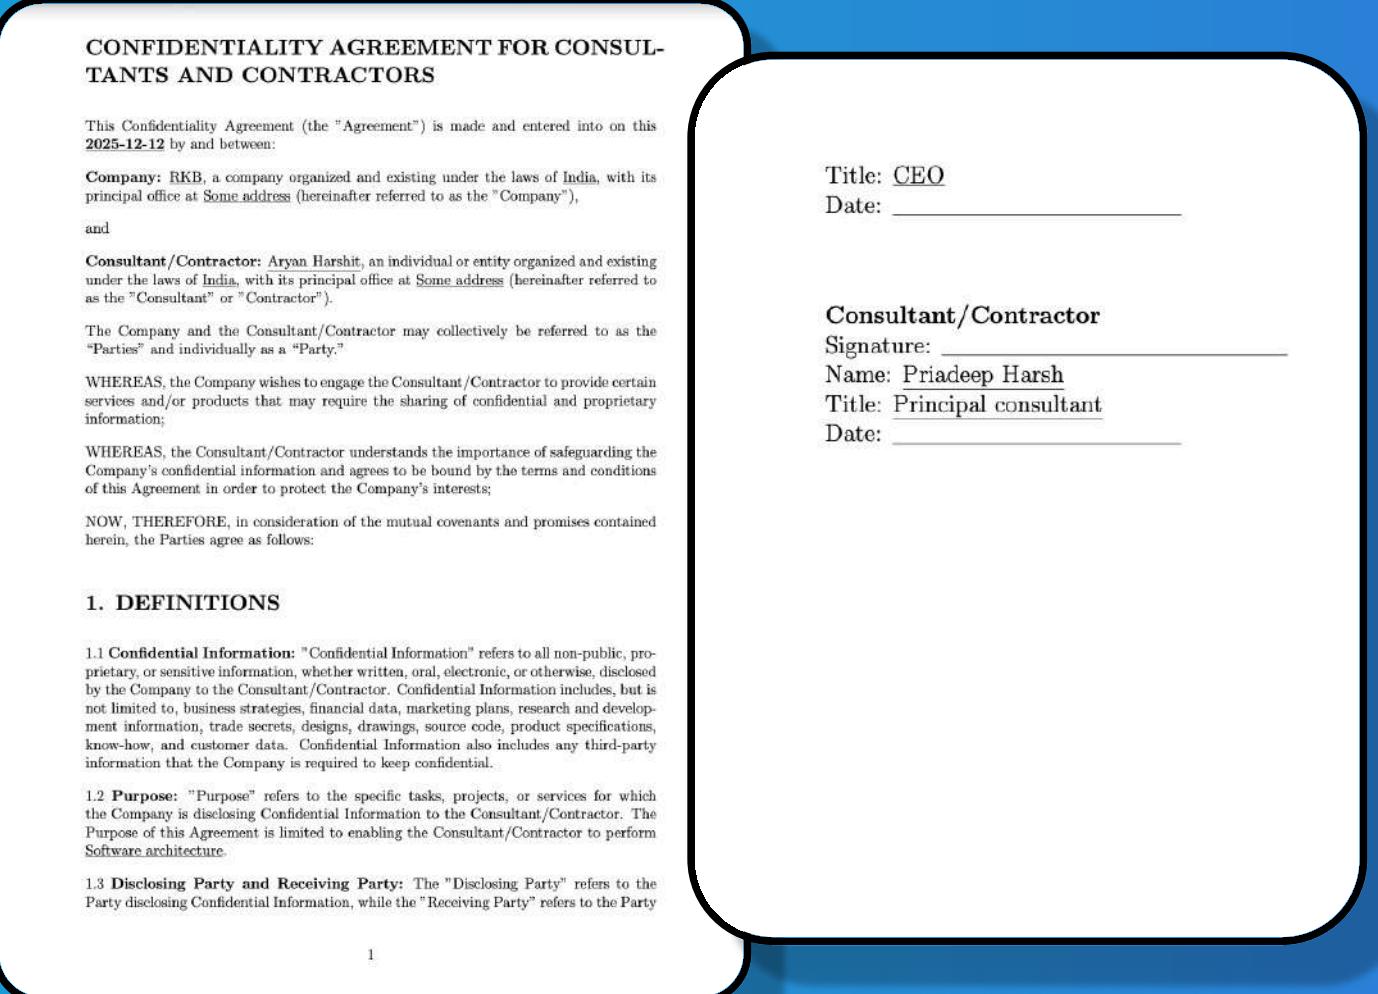

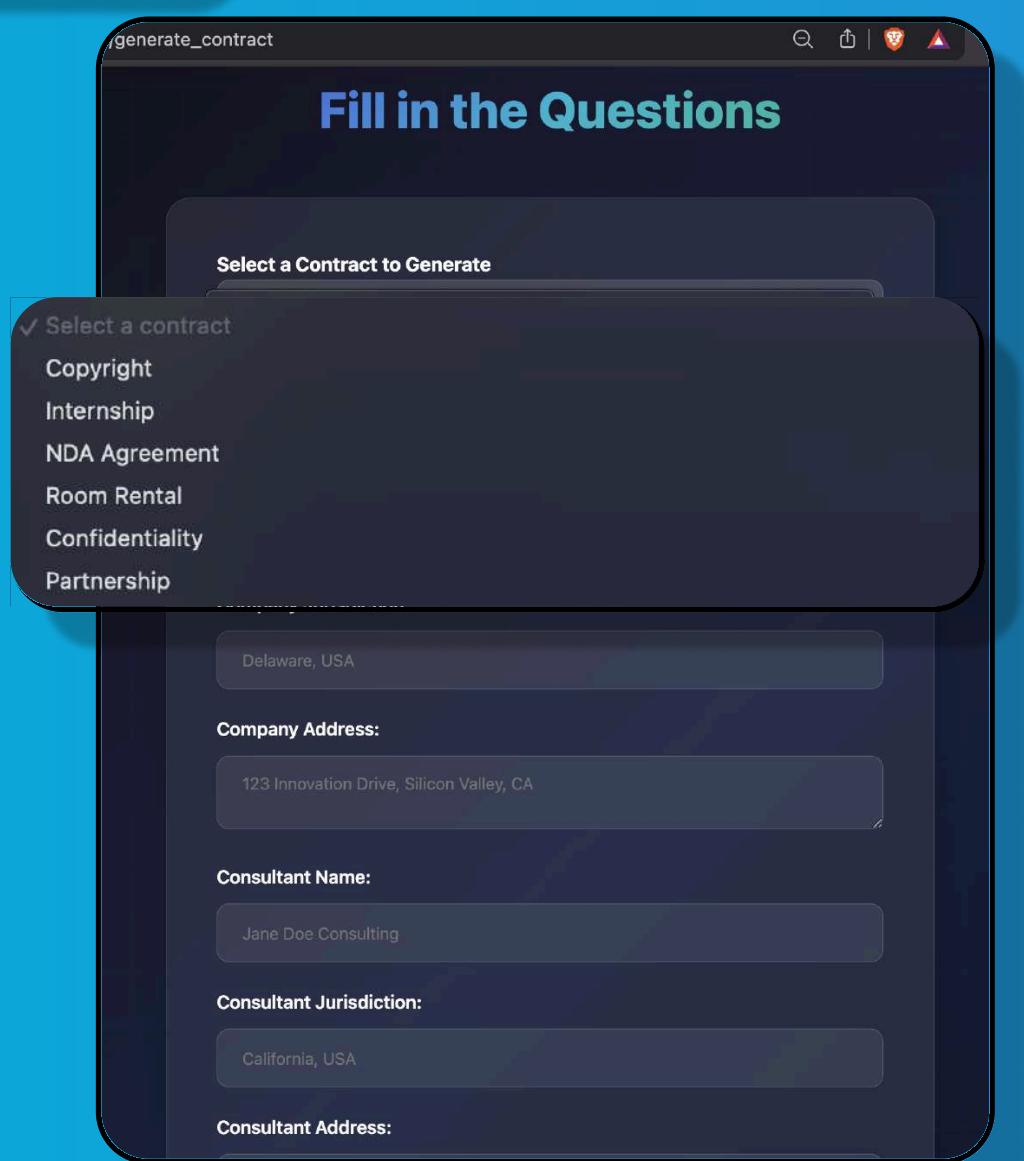

TaDraft

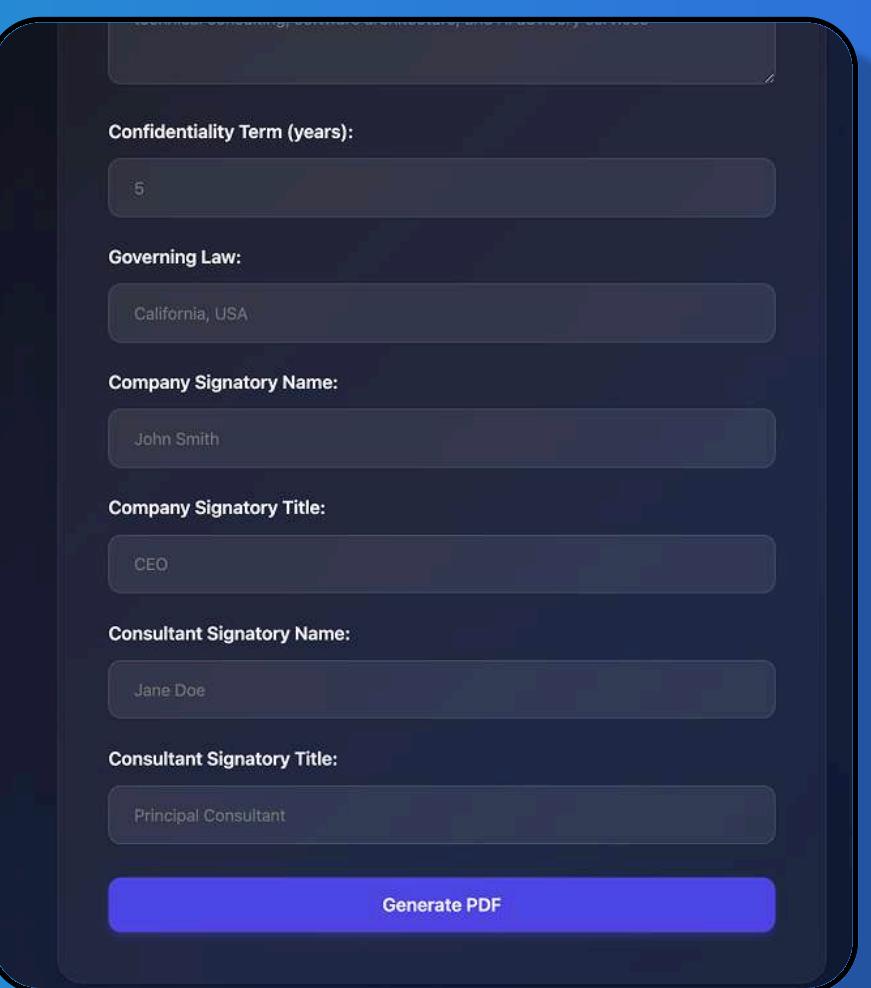

TaDraft is a smart Contract Generator that creates custom legal documents tailored to your situation — saving time, ensuring compliance, and reducing dependency on humanized legal services.

Firstly, choose from a large variety of templates , according to your use.

The final pdf
is ready ; and
is easily
downloadable

Fill in the
required
details

FUTURE PROSPECTS

- Option to preview before downloading the document
- Adding an option to **customise the clauses** ; this will be done by adding a **suggestion box during the preview**. Here , the user can ask AI to add , remove & modify clauses
- Multilingual support
- Adding an option to e-sign the document
- Option to e-mail the pdf to the user.

Taक्त Assist

Taक्त isn't just for laymen — it's a powerful AI legal bot tailored for professionals. It assists lawyers and legal teams in reading, analyzing, and summarizing legal documents, allowing them to work smarter and faster.

Working of Taक्त Assist

- Here we have used **2 LLM's** to get the perfect and **verified answer** for the questions asked by the user.
- Firstly the answer is generated by the 1st LLM which then goes to the 2nd LLM so that it is able to verify the details used to give the answer or **improve the answer** to make it more user friendly
- Then once both the LLM'S answer are ready then we **print the most appropriate answer**; while also presenting a button to view how **we have shaped the answer** from the 2 LLM's responses.
- This not only **increases the trust of the user** on the AI but also **maintains the integrity of the solution** when the same question is answer by 2 different LLM's to give the user the **best experience** possible.

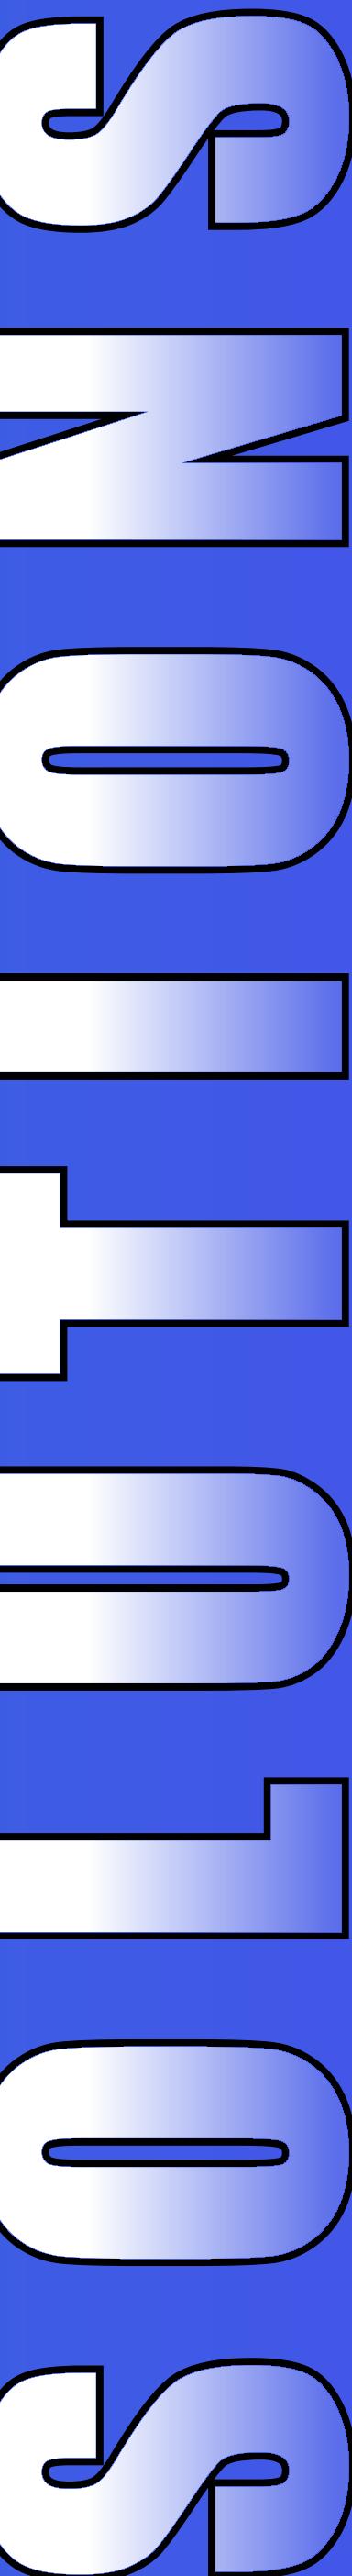

Key Features

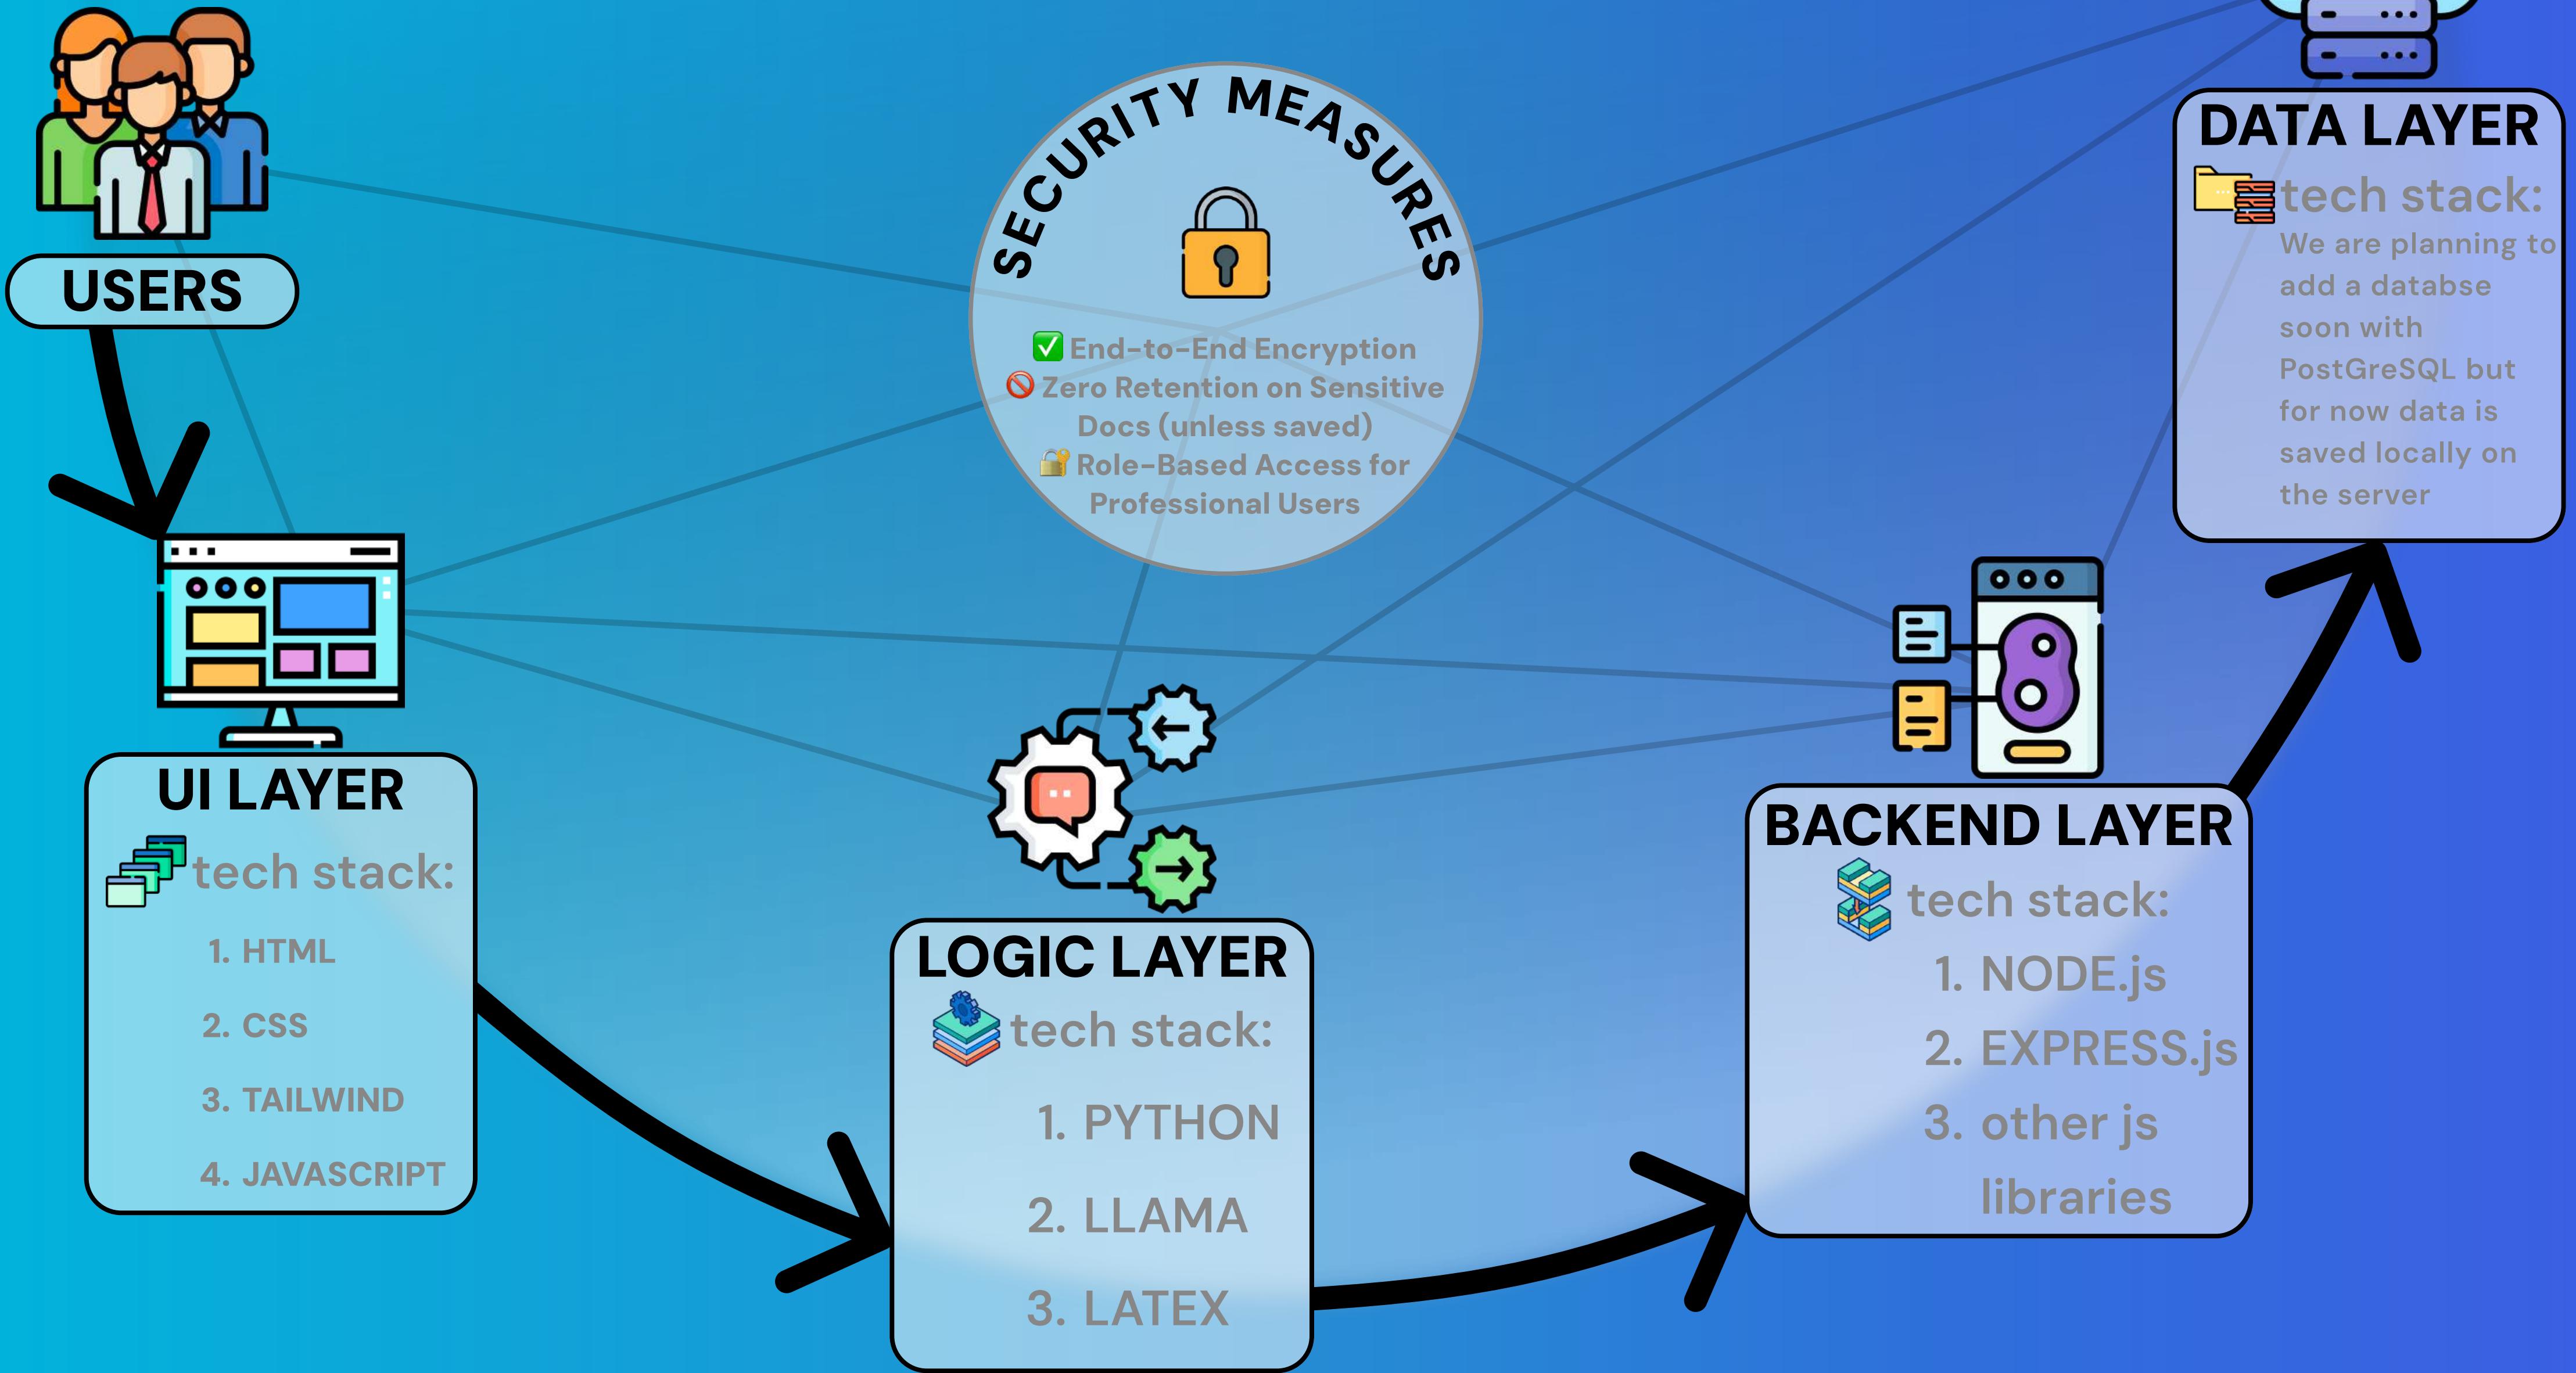

- Between those 2 LLM's , one is given a role of **Generator** and other is given a role of **Challenger** . In near future more Roles like **Judge** , **Jury** will be implemented .
- You can move to **Taक्त Assist** whenever you have doubt regarding something .
- You can upload **as many documents** you want to and as large as it can .
- We are using **Quen Model** which is a Reasoning Model and Thinking Model which provides a lot of detail and then our 2nd LLM plays a role here .

FUTURE PROSPECTS

- For now we still are in process for including this **amazing chatbot in the website** but this feature will be soon available.
- This feature is not only a miracle in itself but acts like an adding feature to the other 2 features
- Suppose the user has some doubt or believes some miscalculation in the data presented in the 1st or 3rd feature then it can asks the chatbot to get a more accurate answer thus making **Taक्तAI** more user friendly than ever

Market Sizing

We're gonna calculate the market size by value-based estimation, built around money lost due to unread fine print, contract scams, and uninformed consent.

What types of losses does Taक्ष help avoid?

Rent Agreements : ₹30,000 Cr/year
unfair clauses, sudden eviction, deposit frauds

Employment Offers : ₹2,800 Cr/year
false promises, notice periods, clawback conditions

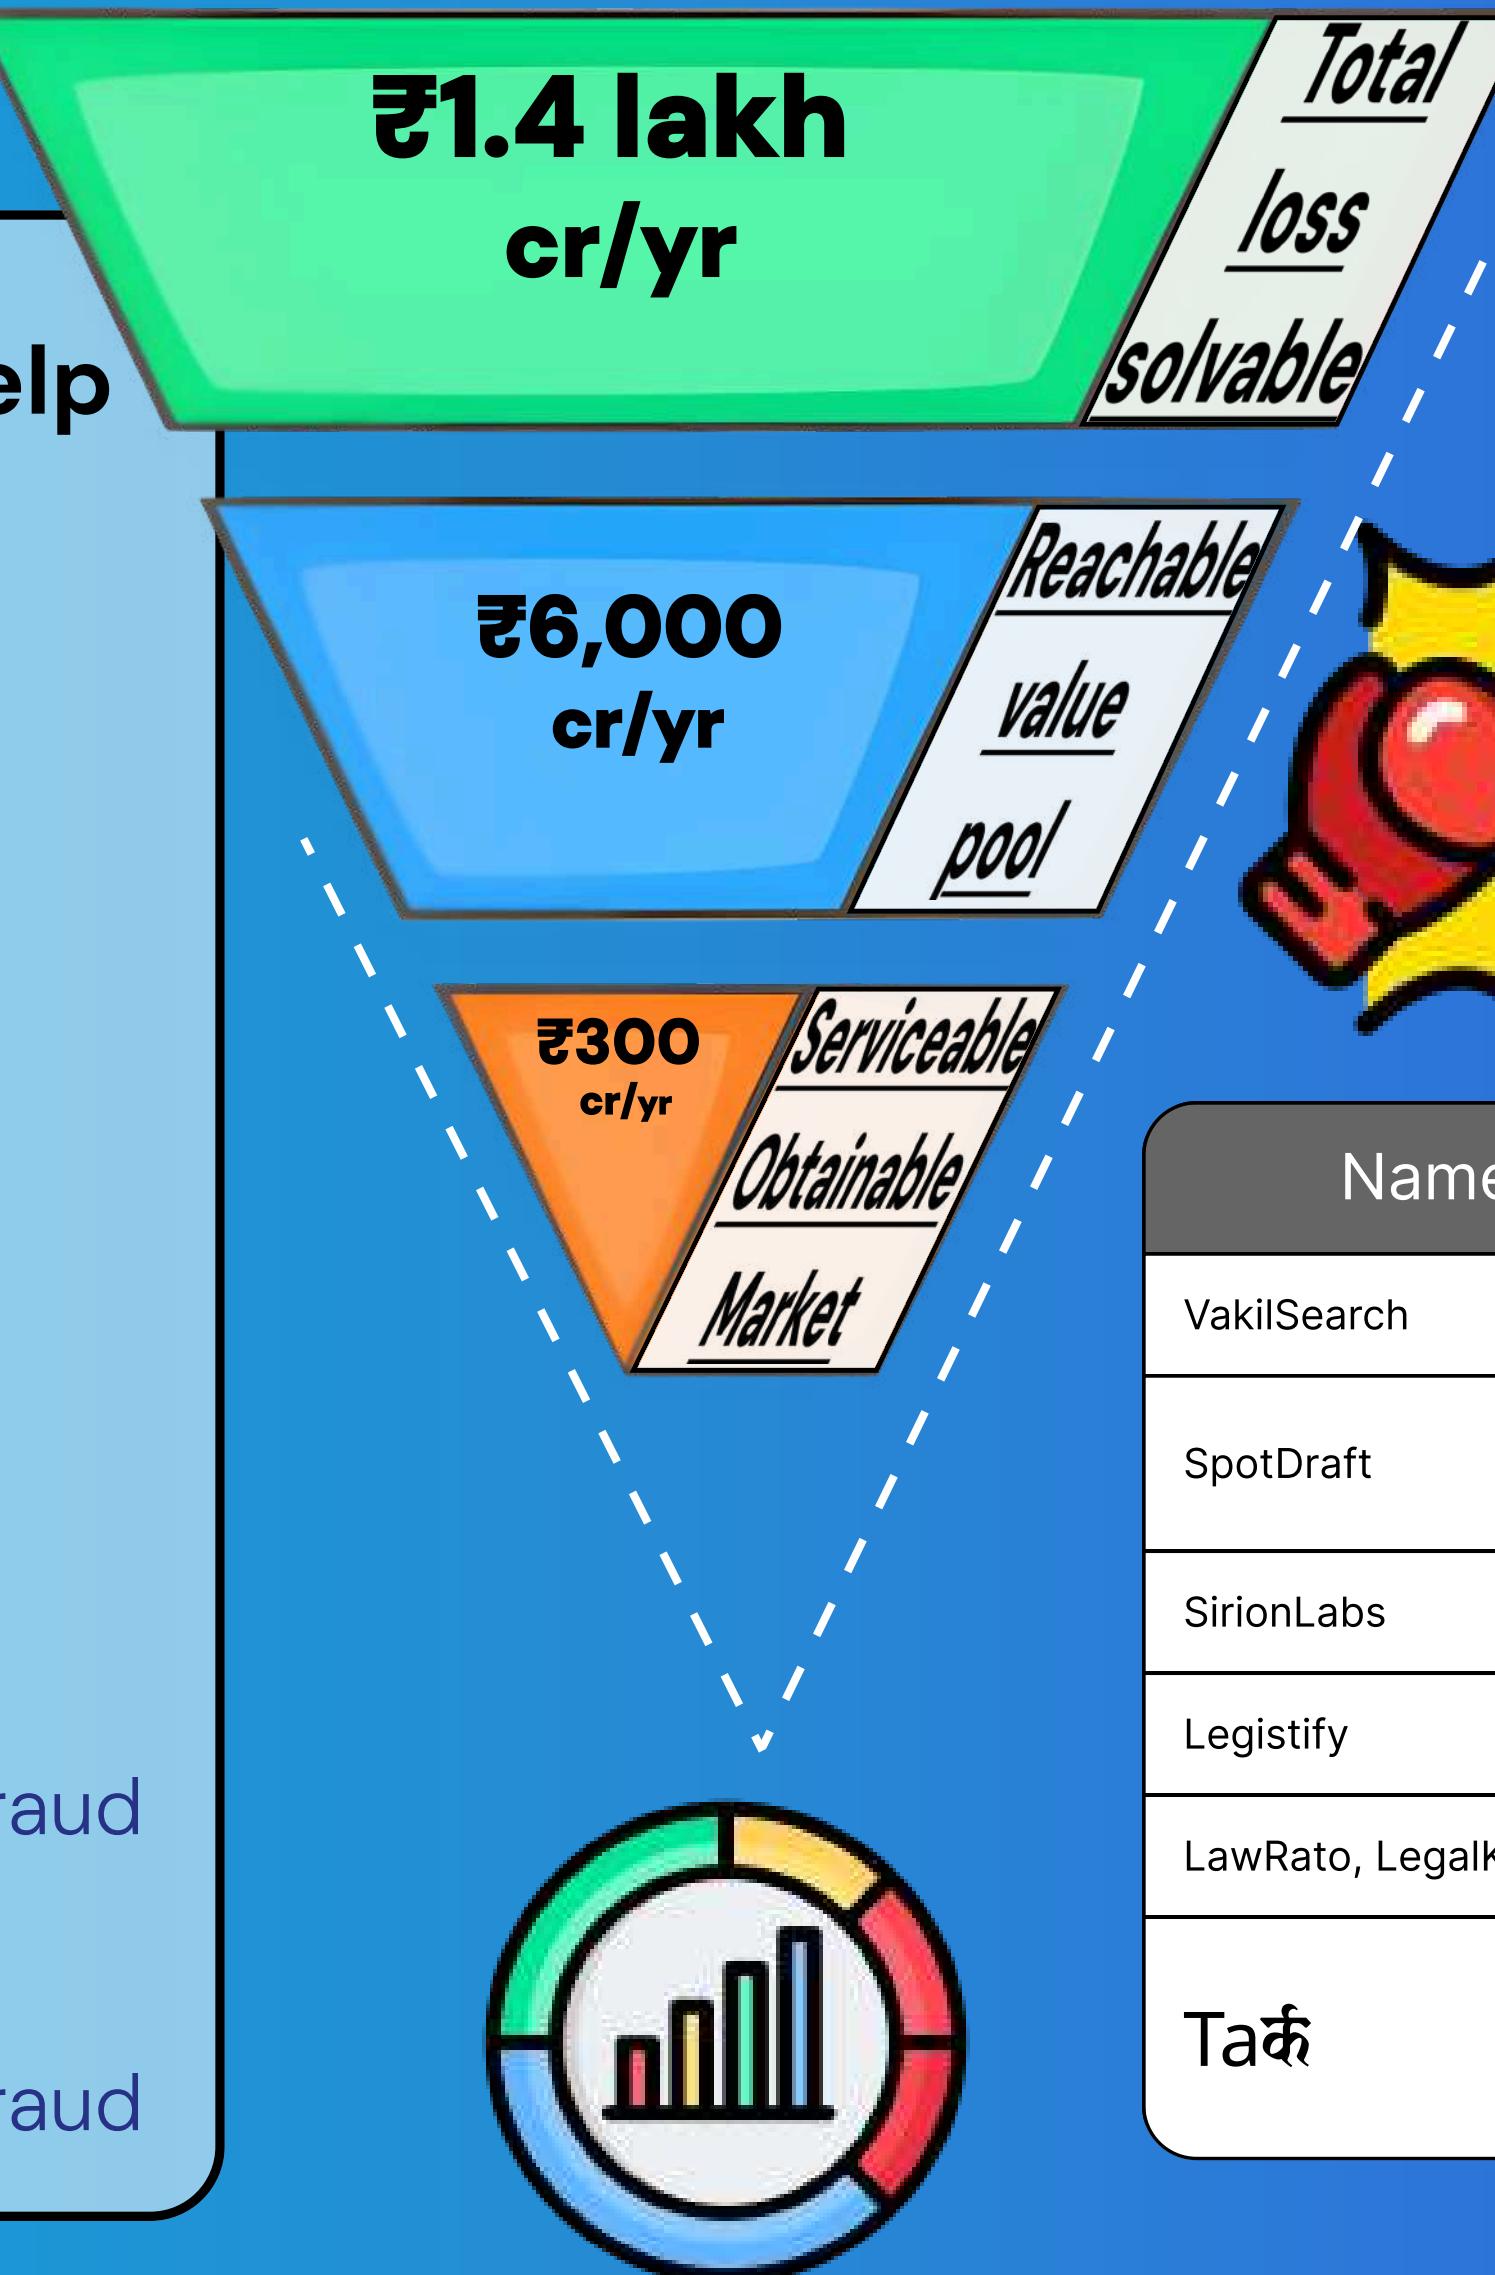

Insurance Contracts : ₹42,750 Cr/year
hidden exclusions, denial of claims

Business Deals : ₹63,000 Cr/year
partnership terms, unpaid dues, vendor fraud

Digital Contracts : ₹3,750 Cr/year
partnership terms, unpaid dues, vendor fraud

Competitor Analysis

Name	Known For	Problem
VakilSearch	Legal marketplace-docs	Complex, not AI-based
SpotDraft	Enterprise CLM (contracts)	Expensive, not for public
SirionLabs	Global SaaS CLM	No small-user access
Legistify	Legal platform	For firms, not people
LawRato, LegalKart	Lawyer marketplaces	Still need expert to help
Taक्ष	AI for the masses	Understands, explains, protects YOU

Business Model

For Whom?	What They Get	Revenue Strategy
Common Public	Taक्ष Assist	<u>Free with ads or ₹49/month</u>
Contract summarisation and key risk identification.	Taक्ष View + Taक्ष Assist follow up questions	i) <u>₹49/use</u> ii) <u>₹499/month</u>
Contract Generation	Taक्ष Draft (Premium Templates)	i) <u>₹29/use</u> ii) <u>₹299/month</u>
Lawyers/Startups	Full suite	<u>₹599/month</u>
Large Teams	Bulk tools, support, analytics	B2B Licensing & API Deals

STEP 4
Deploy the Taक्ष ecosystem through Whatsapp chatbot to reach even more people

STEP 3 - FOUNDER LED MARKETING
Make the company's social accounts (Instagram, X, LinkedIn) and post content ; this should also highlight real-life customer stories and how Taक्ष saved them huge amounts of money.

Go to Market Strategy

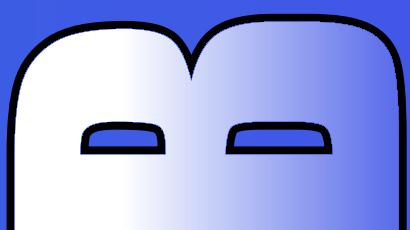

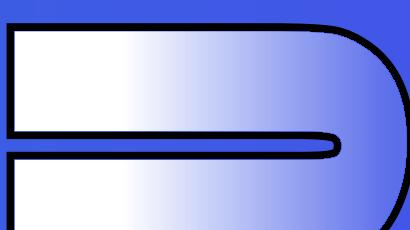

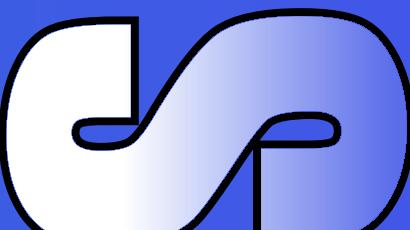

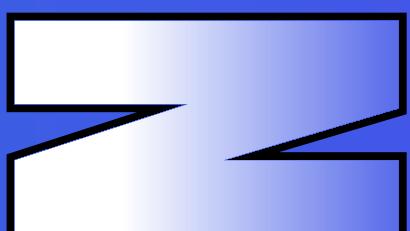

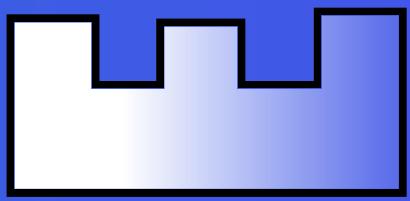

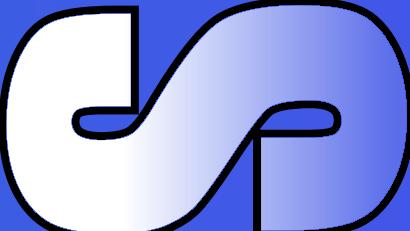

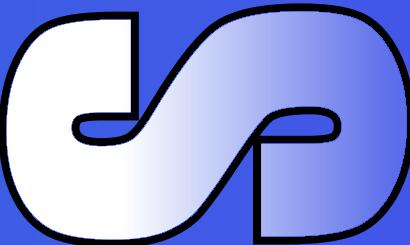

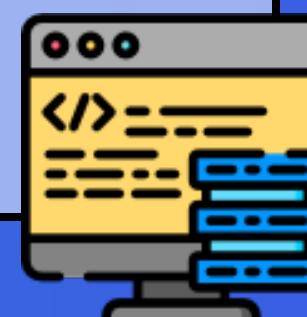

STEP 1

Do more market research and talk to actual lawyers to find possible bottleneck in the Taक्ष ecosystem.

STEP 2

Implement the changes in website and also make an app to launch on play store and app store
